

10 Reasons to Choose IPTECHVIEW UNIVERSAL CAMERAS

Innovation and efficiency with UNIVERSAL cameras

Pre-configured for the Cloud

Our pre-configured cameras automatically connect to the cloud and are activated in the reseller's account, saving time and effort.

2

Simplified and optimal installation

A technician can install the cameras locally, while your specialist makes the final adjustments remotely.

3

Remote Adjustment

**The cameras are ready to be configured remotely,
from any location and device.**

4

Continuous maintenance service

The reseller offers maintenance throughout the system's lifespan, guaranteeing smooth operation.

Extensive inventory of cameras and accessories

ABP Tech, as the exclusive distributor, ensures constant availability to meet any need.

6

Immediate shipping

All orders are shipped the same day, ensuring fast and efficient delivery.

7

Versatility and complete coverage

UNIVERSAL cameras are designed to provide versatile and comprehensive solutions. With limited SKUs you can resolve almost all security projects.

(Streamlined camera models for versatile security solutions)

8

Cameras with advanced technology

They include high-quality audio, infrared vision, high resolution, artificial intelligence, and local storage of (128 GB) or more if needed.

9

A complete ecosystem for IP-based physical security solutions

The ideal choice for your security projects

The IPTECHVIEW platform is compatible with the
main cameras on the market: Axis, Mobotix, Hikvision
and our line of UNIVERSAL cameras
